

OUR COLOR PHILOSOPHY

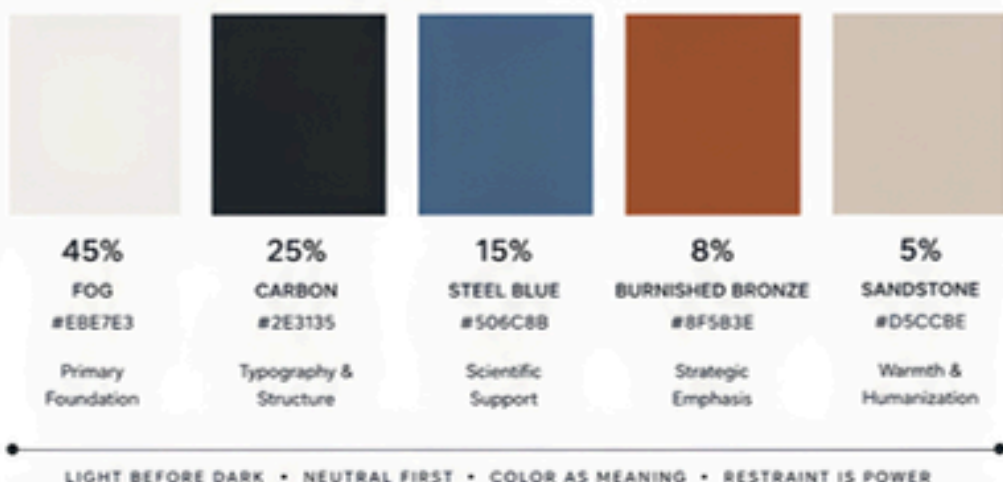

The Oriole Sciences color system is built around scientific restraint and purposeful hierarchy.

Each color serves a distinct functional role:

- Fog creates openness and clarity.
- Carbon provides structure and authority.
- Steel Blue represents intelligent technology and trust.
- Burnished Bronze introduces warmth, energy and human connection.
- Sandstone brings natural sophistication and balance.

The system intentionally favors whitespace, restrained contrast, and purposeful hierarchy to guide the viewer from clarity to insight.

COLOR HIERARCHY & USAGE RATIO

COLOR ROLES & HOW TO USE

Color	Hex Code	Role	Purpose	Psychology
FOG	#EBE7E3	THE CANVAS	Backgrounds, White space, Presentations, Reports, Websites, Forms	Intelligence, Clarity, Confidence through simplicity.

OUR BRAND PRINCIPLES

LIGHT BEFORE DARK
We lead with clarity and openness.

COLOR SHOULD COMMUNICATE MEANING
Every color has a purpose.

EVERY COLOR HAS A JOB
No color is used without intention.

RESTRAINT CREATES IMPACT
We remove what doesn't matter.

COLOR GUIDES THE JOURNEY
From information to transformation.

This system ensures consistency across every touchpoint and reinforces the Oriole Sciences promise of precision, trust, and meaningful progress.
